| Intro Phrase / Tagline       | Extreme Overclocking Memory from Corsair – the Leader in Performance Memory Solutions                                                                                                                                                                                                                                                                                                                                                                              |
| Product Full Name/Title      | Vengeance Performance Memory modules 16GB (4x4GB) DDR3 1866MHz CL9 Unbuffered DIMM Quad and Dual Channel Memory for Intel 2 <sup>nd</sup> and 3 <sup>rd</sup> Generation Intel Core™ Processor platforms.                                                                                                                                                                                                                                                          |
| 25-Word Product Description  | Vengeance Performance Memory modules 16GB (4x4GB) DDR3 1866MHz CL9 Unbuffered DIMM Memory with XMP 1.3 for Intel Quad and Dual Channel Processor Platforms.                                                                                                                                                                                                                                                                                                        |
| 50-Word Product Description  | Vengeance Performance Memory modules, 16GB (4x4GB) DDR3 1866MHz CL Unbuffered DIMM Memory with XMP 1.3 for Intel Dual and Quad Channel® Core™ Processor platforms. Each module is built using carefully selected DRAM to allow excellent overclocking performance.                                                                                                                                                                                                 |
| 100-Word Product Description | Vengeance Performance Memory modules, 16GB (4x4GB) DDR3 1866MHz CL9 Unbuffered DIMM Memory with XMP 1.3 for Intel Dual and Quad Channel Core™ Processor platforms, including 3 <sup>rd</sup> generation Intel Core™ processors. Every Vengeance memory module provides users with outstanding performance and high quality. Vengeance memory modules are built using carefully selected DRAM to allow excellent overclocking performance and rock solid stability. |
